June 2019 – Gateway Medians

**Hey
Millersville,
remember
when this...**

**...looked
like this?**

8 Volunteers cannot keep this up. We need your help.

The “before” picture was taken in 2011. It’s been 8 years now since the two gateway medians at 56th Street and Kessler Blvd and Emerson Ave and Fall Creek Parkway have been beautified to provide a sense of place and pride for Millersville. These beautiful plants and flowers have been carefully maintained and watered all these years by a core team of *8 volunteers*. Not the City of Indianapolis. Not Keep Indianapolis Beautiful. Not the Parks Department. By 8 volunteers.

Maybe you've seen us in our day-glo yellow Millersville Volunteer safety vests. From May to October, twice a week we're out there carrying buckets of water to keep the flowers in the planters vibrant and colorful for your enjoyment and the thousands of other passersby that drive by daily.

If you enjoy passing by these two oases of beauty and have about 30 minutes a month to spare, we're asking for your help. Contact Diane and Keith Gardner for more details: k_d_gardner@yahoo.com

**Check out these great
pictures of MFCV
beautification efforts
over the years!**
